thence North & West on the nearest and best ground, to intersect the public road on the South side of Elijah Taylor's land, respectfully report that after being duly sworn according to law, they proceeded on the 29th day of January 1836, to discharge the duties assigned to them; and after a careful examination of the route and taking into consideration all the circumstances connected with it, we are satisfied that so much of said proposed road as lies North West of John Paine's corner, will not be of public utility; that in our opinion that part of said road from the commencement at the North end of Main Street to the South East corner, of John Paines' Land is a Judicious selection, but the remainder it it should be ordered to be opened, we consider as imposing a mighty and unnecessary burden on the public; as the old route which is

in a considerable State of Improvement is shorter and on equally as good ground. We therefore would not recommend the opening and repairing said road. Respectfully submitted.
